Mobile, powerful, efficient, and effective:
Tornado CarpetRinser/Dryer® Box Extractors

MARATHON BOX EXTRACTORS

Whether you're a certified carpet technician or a carpet cleaning specialist, you will appreciate the features of Tornado's complete line of professional grade carpet extractors. Tornado's CarpetRinser/Dryer Box Extractors will restore even the most heavily soiled carpets. Constructed of durable rotationally molded polyethylene, these units reflect Tornado's commitment to design standards that will endure the rigors of daily usage. Because of their compact vertical design, ease of storage and mobility, Tornado CarpetRinser/Dryer Box Extractors are well-suited for use by contractors, schools, hotels, restaurants and carpet technicians. All three units are designed with 12-gallon recovery/solution tanks and twin 2-stage tangential vac motors that generate 163" of static water lift. Tornado's innovative design features a hinged solution tank, providing full access to motors and other internal components. The body design ensures optimal performance as well as reduced sound levels.

MARATHON 2-100

This durable unit is designed with a 100-psi diaphragm demand pump for all types of carpet fibers and upholstery. The 2-100 comes standard with a 25' heavy-duty detachable power cord. Optional vac pressure hose and related attachments complete the package.

MARATHON 2-100H

This unit has all of the same quality features as its sister, the 2-100, plus an on-board heater unit that raises the water temperature to 212° for more aggressive cleaning requirements. The 2-100H is the choice for auto detailers, restaurants and food service areas where greasy or oily carpets are often found. This unit comes standard with two (2) 25' heavy-duty detachable power cords. Optional vac pressure hose and related attachments complete the package.

MARATHON 2-500H

There are many times when carpet cleaning requires the power of a portable truck mount extractor and the versatility of a portable unit. The Marathon 2-500H answers this need. This model incorporates a variable pressure pump that allows it to be adjusted anywhere from 50 – 500 psi, which is perfect for delicate upholstery cleaning to heavily soiled carpets of all types. An on-board heater raises the water temperature to 212° for the most aggressive cleaning requirements. The 2-500H is the perfect choice for certified carpet technicians. This unit comes standard with two (2) 25' heavy-duty detachable power cords. Optional vac pressure hose and related attachments complete the package.

MARATHON CARPETRINSER/DRYER BOX EXTRACTORS

Easy of Transport

The dolly-type design makes transporting a breeze. With large non-marking rubberized wheels and durable front-mounted swivel castors, the units can easily be transported from one job to another or easily taken up a flight of stairs.

Versatility

From standard models to units that will do the job of a truck mount, Tornado has a unit for all your needs.

Ease of Use

The control panel and hose hook-ups are conveniently located at the top of each model. All switches are fitted with molded vinyl covers to protect them from moisture. Each unit has molded-in compartments for spotter bottles and brushes.

Smart Design

The recovery and solution tanks are both accessed at the top of the units and feature large openings for ease of fill and rinsing. The recovery tank features a float that cuts off suction when the tank reaches capacity to protect the vac motors. The large center-pull drain valve is located at the rear of the unit, which allows rapid removal of soiled solution into a floor drain or bucket.
