

MAPW-20 SERIES

FEATURES

- Optional cleanable cartridge filter system keeps solution particulate free and extends life of bath.
- Positionable main fountain keeps solution directed at work while freeing hands for other tasks.
- Heavy duty 36" x 26" sink provides enough space for multiple simultaneous jobs.
- Sink insert sediment tray traps solids before they accumulate in sump.
- Heavy duty 1/2" rust proof polyethylene shell construction provides energy efficient thermal barrier against heat loss.
- Optional heavy duty caster assemblies enable washer to be moved wherever most convenient.
- Low level alarm alerts user to need for additional solution.
- Automatic low level shut down prevents heater damage due to exposure to air.
- Heavy duty submersible pump provides power for light and medium duty cleaning jobs.
- Thermostatically controlled operating temperature at up to 150°F ensures parts come clean and dry quickly.
- Stainless steel drain basket and cover.
- Flow through detail brush tool for detail work.
