**NT 14/1 Eco Advance**  
Craftsman's Wet/Dry Vacuum

# The craftsman's vacuum – Your mobile solution.

With the NEW NT 14/1 Eco Advance, Kärcher engineers have combined two things for which a craftsman should accept no compromises: maximum mobility & powerful suction. The NT 14/1 was designed with numerous practical details, such as a fold-up handle and generously appointed accessories, so you're never out of reach of the tools you need.

## Engineered so Compact & Clever.

The NT 14/1 is not only another wet/dry vac, it's a wet-dry vac for a craftsman, created based on discussions with professionals. Professionals who know exactly what is needed on a construction site. The NT 14/1 features numerous intelligently detailed solutions that make your work easier while adding nothing to the overall weight of the machine. This makes the NT 14/1 unbelievably compact and clever.

### NT 14/1 Eco Advanced

- Fold-up handle
- Semi-automatic filter shaker
- Easy to remove the suction unit

#### 1 Fold-out handle

No bending, no dragging. The practical handle makes the vacuum a cart for easy transport to the job site. And, the flat top is perfect for transporting a tool box or for sitting.

#### 2 Everything taken into consideration

The NT 14/1 shines with extensive accessories – standard. The base unit separates from the canister with a single click for carrying.

#### 3 Making space

Since all of the parts such as the crevice nozzle, floor nozzle and suction tube are kept in the machine itself, the NT 14/1 is both fully equipped and compact.

#### 4 Breathing easily for the long haul

Despite its compact size the NT 14/1 has a semi-automatic filter shaker, so you can keep vacuuming without losing the powerful suction you need.

#### Technical data

Air flow	129 cfm / 61 l/s
Vacuum	88.6" / 21 kpa
