Landa Water Jet Surface Cleaner

Water Jet is the ultimate industrial surface cleaner on the market. It handles easier, cleans faster and holds up better under the toughest conditions.

The Water Jet's spray bar spins at 2,000 RPM and can be adjusted to blast concrete but not dig up asphalt or wood. The rotating bar and shaft are made of stainless steel with sealed precision guide bearings for low maintenance and a long life.

A holster-mounted trigger gun and insulated wand make for convenient spot cleaning in hard-to-reach places.

Other features include:

- Made of durable, rust-free polyethylene, for easy handling, but weighs only 45 lbs
- Pneumatic tires on steel wheels make for easy maneuvering on all surfaces
- Easy-to-clean, in-line filter keeps spray nozzles from plugging
- Auto switching between surface cleaner and holster-mounted wand
- Tri-lingual warnings and operating instructions
- Collapsible handle for ease in transporting

Landa Industrial Sandblasters

LANDA®

For the extra-tough cleaning jobs, wet-sandblasting is the dust-free solution.

Landa's sandblasters attach to a hot or cold water pressure washer and, using a venturi, mixes sand or other abrasive media with the high-pressure spray to create enough cleaning power to strip paint off concrete and barnacles from a ship's hull.

The sandblasting nozzle is made of tungsten carbide for long life. There are two models—a top-of-the-line steel pot (photo at right) with tight-fitting lid or with a probe only.

Other features include:

- Quick-connect coupler for ease in attaching sand probe or pot
- Valve for metering the flow of the media
- Tubed, pneumatic tires for easy maneuvering
