

ATTIX 30 & 50

Superior Suction power in a compact and flexible solution

www.nilfisk-alto.us

Attix 30 and 50 – The Perfect Solution For Professionals on the Move!

The Attix 30 and 50 are the new and compact generation of the Attix line - representing the new possibility of achieving superior suction power in a durable and flexible solution. With the freedom to choose, you can have the vacuums with different filter cleaning technologies; the Push&Clean system or the new generation of the fully automatic XtremeClean.

Auto On Off socket makes it possible to adopt electrical power tools.

Nilfisk ALTO

Key Features & Benefits

- Powerful vacuum motor generates 130 CFM and 100 inches of water lift
- Quiet motor technology generates low noise rating of 62 dB A
- 8-gallon (Attix 30) and 12-gallon (Attix 50) tank capacities
- Ergonomic hand grip allows easy cable storage
- Hose, wand, floor tool and attachments included
- Push & Clean filter cleaning technology
- Extreme Clean filter cleaning technology (Attix 50 AS/E XC model only)
- Washable PET-fleece filter cartridge for long life
- Tool storage area on cover
- Auto On/Off socket for auxiliary power tool connection (AS/E models only)
- H.E.P.A. models meet EPA standards for lead paint removal

XtremeClean is setting new standards

Compactness and high performance are key features in the most recent generation of the XtremeClean system. With the ambition of setting new standards, the two curved flat filters with nano technology maximize the container volume and improve the efficiency even more. A servo motor controlled Y-FLAP ensures precise reversed air flow and prevents power loss during operation.

Start the vacuum - the filter is immediately cleaned automatically and every 20 seconds while you work! There is no need to interrupt your work to clean the filter.

You concentrate on your task, and XtremeClean will take care of the filter cleaning.
