

Taskforce® 1700 Trot-Mop™

Simultaneous wet and dry recovery,
in a durable compact package

Reliable Performance

For reliable, wet/dry vacuum performance add the Taskforce® 1700 Trot-Mop to your cleaning and maintenance arsenal. Constructed of rugged rotationally molded polyethylene, this unit provides the performance and durability professionals have come to expect from Tornado®. Built-in carry handles and Tornado's® innovative lid design facilitate quick transport and cord management.

Made of durable rotomold plastic and mounted on four easy transport wheels, this unit generates 120 cfm and 84 inches of waterlift to effectively handle general dry debris and water, scrubbing solutions, and stripping solutions in commercial environments.

Ease of Use

The Taskforce® has been designed with reduced sound levels in mind for use in health care, office, and hospitality facilities as well as other noise-sensitive environments. A unique cartridge filter permits simultaneous wet and dry recovery without the hassle of changing filters during a clean-up project. The housing allows easy access for maintenance and service needs. The Taskforce® is available as a traditional wet/dry vacuum with an efficient Trot-Mop™ with a two-way, 28" squeegee.

Taskforce® 1700 Trot-Mop™

Simultaneous wet and dry recovery, in a durable compact package

Key Features:

- Two-way 28" trot-mop squeegee comes standard
- 120 cfm and 84" waterlift
- 17 gallon dry recovery capacity
- 13.8 gallon wet recovery capacity

Versatility

The Taskforce® 1700 Trot-Mop™ provides versatility, ease-of-use and superior performance in the following environments:

- Healthcare Facilities
- Commercial Office Buildings
- Hotels and Resorts
- Restaurants

Washable filter

The filter is easily removed from the float cage for washing and re-use.

Simultaneous wet/dry recovery

Both wet and dry recovery is possible without the need to change filters.

Mobility and portability

Two-rear mounted wheels and two front swivel casters make transport simple. Molded-in grip handles, shown here, make carrying the unit or lifting and dumping debris easy.

Convenient

The molded-in carrying handle doubles as a cord wrap when the machine is not in use.
